

A
N, z
a connection utility to establish a communication session with the host unit
over a communication link; and
a pop up menu utility providing at least a user choice at the remote site
computer to obtain access to the host computer via the communication utility.

REMARKS

Claims 93-192 correspond to the claims pending in the parent case as of this date. Claim 193 is newly presented, i.e., it was never presented in the parent case.

10022001
Taking into account the Examiner's previous rejections, all claims that presented the possibility of interference with the Beasley patent family are no longer presented herein. The Beasley interference possibility should now be mooted. The claims that remain herein closely correspond to the present specification.

If an interview would facilitate examination and allowance of the now pending claims, the undersigned would be pleased to be available at (703) 816-4019.

Respectfully submitted,

NIXON & VANDERHYE P.C.
